I am so excited to share with you a new amazing resource for Omnisphere 2! I have been waiting for a crack that would work, and finally found one. I have been playing around with it. Here is what works: r2r 49, which was just published on the Omnisphere 2 Facebook group by David Hill. Here is the link: <https://www.omnisphere2.net/forums/index.php?topic=1383.0> Another big project I am working on is to open up the redesign of Omnisphere 2 and make it compatible with devices like iPad and 3rd Gen iPads, as well as iPhones and Android tablets, as well as the redesigned controller (coming soon).
