
Ism Book Emc Pdf 11

- **Hardware and software components needed**
 - High end and Mid-range storage array
 - Current additional storage? (if)
 - FC SAN, LAN
 - Server
- **Software**
 - IBM tool
- **Research on following products and solutions (www.emc.com)**
 - Storage array – (CLARION / Symmetrix)
 - CAS - Content
 - FC SAN – Brocade / Qlogic
 - SAN strategy
- 5. The marketing department of a mid-size firm is expanding. New firms are being added to the department and they are given network access to the department's files. IT has given marketing a networked drive on the LAN, but is having trouble capacity every third week. Current capacity is 100 MB (and growing), with bandwidth of files (users are complaining about LAN response times) and capacity. As the IT manager, what would you recommend to improve the situation?
Solution (100)
 - SAN
- 6. A large company is considering a storage infrastructure – one that is scalable and provides high availability. Most importantly, the company also needs performance for its mission-critical applications. Which storage topology would you recommend (SAN, NAS, or DAAO) and why?
Solution (100)
 - SAN is recommended solution.
 - Because SAN has high availability and availability (using director or switch)
